Interim Report

Third quarter 2015

Zaandam, the Netherlands – Ahold today published its interim report for the third quarter of 2015. Highlights of the third quarter are:

- Strong sales performance, with Group sales up 13.0% (up 1.7% at constant exchange rates)
- Sales excluding gas up 3.3% at constant exchange rates
- Underlying operating income increased to €319 million; underlying operating margin at 3.8%
- Strong free cash flow of €230 million, up €160 million
- Identical sales in the Netherlands up 4.0%, reflecting positive sales trends at Albert Heijn and in online
- Underlying sales trends in the United States continued to improve, with identical sales growth of 1.8% excluding gas, adjusted for competitive disruption last year
- Agreement reached for Stop & Shop to acquire 25 A&P stores in New York

CEO Dick Boer said: "The Group delivered a strong performance during the third quarter and we are pleased to report an increase in sales, operating income and net income, as well as a strong free cash flow. We made further progress against our strategic priorities and the investments in our brands are strengthening our customer proposition across all of our markets. In recognition of our continued commitment to responsible retailing, Ahold was included in the Dow Jones Sustainability World Index for the seventh consecutive year.

"In the Netherlands, the strength of the Albert Heijn brand continues to drive positive sales trends and we were particularly pleased with the increase in identical store sales. Our strategy to focus on quality and assortment improvements led to an increase in transactions and market share gains. Our market-leading Dutch online businesses, Albert Heijn Online and bol.com, grew net consumer sales by over 30%, and in the United States, Peapod's performance improved, reporting double-digit sales growth. We rolled out our enhanced customer proposition in the U.S. to additional stores during the quarter and as a result, we saw an improved underlying sales performance across our divisions.

"Looking ahead, we are on track to deliver a full year performance in line with expectations and to complete the proposed merger with Delhaize by mid-2016. This combination will create a stronger international food retailer for the benefit of our customers, associates and shareholders."

Comparable sales growth excluding gasoline	0.6 %	1.3%			0.8 %	(0.1)%		

Underlying sales trends in the United States continued to improve, with identical sales growth of 1.8% excluding gas and adjusted for last year's sales uplift as a result of a business disruption at one of the Stop & Shop New England division's main competitors.

Total third quarter net sales of €5,248 million were up 16.6%. As a result of lower gas sales this was 1.4% lower than last year at constant exchange rates. Excluding gas, net sales at constant exchange rates were 0.8% higher than last year, while reported identical sales growth excluding gas was 0.4%.

As part of our program to improve our customer proposition, we are continuing the roll-out of our new produce department format, launching it to another 149 stores during the quarter, bringing the total to 316 stores. We are encouraged by the volume uplift that we see in the converted produce departments. With the exception of Stop & Shop New England, volume market share grew in comparison to last year. Our online business Peapod improved the capacity usage at its newest distribution facility and achieved double-digit sales growth.

Ahold USA's underlying operating margin stood at 4.0%, up 0.2 percentage points from the same quarter last year. The improvement reflects stronger operational performance across our business, driven by our Simplicity program, and reflects sourcing savings, improved labor efficiency and stronger shrink performance. Lower gas sales, due to falling gas prices, with a higher margin had a positive impact on the operating margin, but were more than offset by lower reimbursements on pharmacy products.

On July 20, Stop & Shop New York Metro entered into a conditional agreement to acquire stores from A&P. On October 8, 2015, all conditions had been met and we commenced the purchase of the 25 stores. The conversion of the stores is ongoing, with the final group of stores expected to be converted in mid-November.

The Netherlands

€ million	Q3 2015	Q3 2014	% change	Q3 YTD 2015	Q3 YTD 2014	% change
Net sales	2,796	2,604	7.4%	9,434	8,857	6.5 %

Identical sales growth	4.0%	(1.1)%		3.2%	(1.4)%	
Comparable sales growth	4.5%	(0.8)%		3.7%	(1.2)%	

Our business in the Netherlands continued its positive sales trend, with third quarter net sales of €2,796 million, an increase of 7.4% compared to last year, or 4.0% on an identical sales basis. Higher volumes at Albert Heijn were driven by an increased number of transactions, which resulted in a higher market share than last year. Volume growth was particularly strong for our Fresh assortment.

At Albert Heijn we continue to respond to what customers want and we improved our customer proposition through quality and assortment improvements across all categories. We also introduced innovative concepts, such as a fully self-scan store, the Allerhande meal box and approximately 1,000 new products this year, in addition to offering attractive promotions.

In addition to the identical sales growth, net sales growth versus last year benefited from the conversion of former C1000 stores in the Netherlands and the opening of new Albert Heijn stores in Belgium. During the quarter we opened our 33rd store in Belgium.

The underlying operating margin of the Netherlands, excluding bol.com, was 5.1% (Q3 2014: 5.2%). Excluding the impact of higher pension costs, as a result of lower interest rates, margin excluding bol.com was slightly higher compared to last year. The margin increase was driven by an improvement at our Albert Heijn supermarkets, primarily as a result of increased sales and Simplicity cost savings.

Our online operations, bol.com and Albert Heijn Online, achieved a net consumer sales growth of over 30%, as we continue to invest in strengthening our leading position as an online retailer. Bol.com recorded especially strong sales growth versus last year for both its Plaza platform and in Belgium, with bol.com now offering an assortment of 10 million products. Sales growth at Albert Heijn Online was primarily the result of attracting new customers in our existing market areas.

The additional investments in our online businesses have diluted our year-to-date margin in line with our full-year expectations of 25 basis points.

Excluding gas, net sales at constant exchange rates were 6.4% higher than last year. Total third quarter net sales of €396 million were 5.5% higher than last year at constant exchange rates, driven by the inclusion of 49 SPAR stores acquired as of August 1, 2014.

During the quarter, the former SPAR stores became part of our identical store base. Identical sales growth excluding gas was down by 0.7%, adversely affected by the larger former SPAR stores. Initiatives are being piloted and implemented to improve the performance of these stores. Excluding these stores, the Czech Republic posted positive identical sales growth driven by the performance of our supermarkets. During the quarter we finalized the antitrust requirement to divest five stores, related to the SPAR acquisition.

The underlying operating margin of 1.3% included €1 million of non-recurring costs related to the SPAR integration this quarter (YTD Q3 2015: €7 million).

Corporate Center

Underlying Corporate Center costs were €27 million, an increase of €17 million over the prior year, of which €9 million relates to insurance activities (primarily reflecting a non-cash charge from lower discount rates).

Outlook

Our business performance remains on track to deliver in line with full year expectations. We expect free cash flow to be slightly ahead of last year, based on current exchange rates. Consistent with previous guidance, gross capital expenditure for 2015 is expected to be around €900 million, (2014: €732 million) including the capital required for the conversion of the acquired A&P stores in the United States.

Financial review

Third quarter 2015 (compared to third quarter 2014)

Underlying operating income was €319 million; €34 million higher than last year. Underlying operating margin was 3.8%, which is unchanged from last year.

Operating income increased by €10 million to €284 million. This included increased restructuring and related charges of €6 million, lower gains on the sale of assets of €4 million, lower impairments of €2 million, an €11 million charge resulting from the withdrawal from an Ahold USA multi-employer pension plan and a €5 million loss for a change in inventory valuation measurement technique in The Netherlands, when compared to Q3 2014. Restructuring and related charges in Q3 2015 included €12 million of costs incurred in connection with the planned merger with Delhaize and €1 million of pre-acquisition costs related to the former A&P stores in the U.S. In Q3 2014, restructuring and related charges of €7 million primarily related to the SPAR acquisition in the Czech Republic.

Income from continuing operations was €189 million; €12 million higher than last year. This follows from the increase in operating income of €10 million.

Net income was €189 million, up €11 million compared with last year.

Free cash flow of €230 million increased by €160 million compared to Q3 2014. This increase was mainly driven by higher cash generated from continuing operations of €148 million and lower purchases of non-current assets of €23 million, offset by lower proceeds from the divestments of assets of €12 million. The increase in cash generated from continuing operations was predominantly due to favorable year-over-year changes in working capital of €127 million.

Net debt decreased in Q3 2015 by €241 million to €1,222 million. The decrease was primarily due to the free cash flow of €230 million.

First three quarters 2015 (compared to first three quarters 2014)

Underlying operating income was €1,040 million, up €75 million from €965 million in 2014. Underlying operating margin was 3.7%, compared to 3.9% last year, mainly as a result of increased investments in our online businesses and the integration of SPAR in the Czech Republic.

Operating income increased by €17 million to €931 million. This included, when compared to the first three quarters of 2014, increased restructuring and related charges of €34 million, higher impairments of €6 million, lower gains on the sale of assets of €2 million and the €16 million of other costs incurred in Q3 2015 mentioned above. The increase in restructuring and related charges is due to the difference between the cost of the 2015 Ahold USA support office restructuring as well as the early retirement incentive offered to Giant Landover store associates and the 2014 reorganization of the support roles at Albert Heijn and the Corporate Center. 2015 also includes additional costs for the acquisition and integration of the SPAR business in the Czech Republic of €14 million and an additional €22 million of costs incurred in connection with the planned merger with Delhaize.

Income from continuing operations was €595 million; €25 million higher than last year. This reflects the increase in operating income adjusted for higher net financial expenses of €20 million and lower income taxes of €26 million. The higher financial expenses are mainly related to higher interest expense in 2015 of €17 million, due to the strengthening of the U.S. dollar. At constant exchange rates, interest expense decreased by €8 million.

Net income was €597 million, up €222 million. The change is primarily due to a 2014 charge of €192 million to settle the Waterbury litigation, associated tax impact and legal fees.

Free cash flow was €783 million; €341 million higher than last year. The increase is due to higher operating cash flows from continuing operations of €384 million offset by higher capital expenditures of €3 million, lower proceeds from divestment of assets of €27 million and higher payments of interest of €13 million. Contributing to the increase in cash generated from continuing operations were lower income taxes paid of €106 million and favorable year-over-year changes in working capital of €72 million.

Notes to the consolidated summary financial statements

1. The Company and its operations

The principal activity of Koninklijke Ahold N.V. ("Ahold" or the "Company" or "Group" or "Ahold Group"), a public limited liability company with its registered seat and head office in Zaandam, the Netherlands, is the operation of retail food stores in the United States and Europe through subsidiaries and joint ventures.

The information in these condensed consolidated interim financial statements ("financial statements") is unaudited.

2. Accounting policies

Basis of preparation

These financial statements have been prepared in accordance with IAS 34 "Interim Financial Reporting." The accounting policies applied in these financial statements are consistent with those applied in Ahold's 2014 consolidated financial statements.

Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual profit or loss.

Ahold's reporting calendar in 2015 is based on 12 periods of four weeks and one period of five weeks, for a total of 53 weeks. The 2014 reporting calendar is based on 13 periods of four weeks, for a total of 52 weeks. In 2015 and 2014, the first quarter comprised 16 weeks and the second and third quarters each comprised 12 weeks.

New and revised IFRSs effective in 2015

Contributions from employees to defined benefit plans - Amendments to IAS 19

The objective of the amendments was to simplify the accounting for contributions that are independent of the number of years of employee service, for example, employee contributions that are calculated according to a fixed percentage of salary. The simplification was to allow entities the option to recognize employee contributions as a reduction of service costs in the period in which the related service is rendered, instead of attributing the employee contributions to periods of service. The amendments have no impact on the Group, as Ahold has chosen not to avail itself of the practical expedient offered in the amendment and will continue to attribute employee contributions to periods of service.

IFRIC 21 Levies

IFRIC 21 addresses the issue of when to recognize a liability to pay a levy imposed by a government. The interpretation defines a levy and specifies that the obligating event that gives rise to the liability is the activity that triggers the payment of the levy, as identified by legislation. The adoption of IFRIC 21 does not have a significant financial effect on the consolidated financial statements of the Group.

Annual improvements to IFRSs 2010-2012 and to IFRSs 2011-2013

Annual improvements to IFRSs 2010-2012 Cycle and annual improvements to IFRSs 2011-2013 Cycle made a number of amendments to various IFRSs, which, based on Ahold's current financial position, will not have a significant effect on the consolidated financial statements.

3. Business combinations

On August 14, 2012, Ahold announced that its Albert Heijn division had completed the acquisition of 78 C1000 and four Jumbo stores from Jumbo for €290 million in cash. A net amount of €273 million was paid by October 4, 2015 (of which €7 million was paid during 2015) in relation to the transferred stores. As of October 4, 2015, Ahold had reached agreements concerning 75 franchisees, of which 71 stores have been converted and opened under the Albert Heijn banner and four stores have been divested directly upon acquisition. For the remaining seven stores, Ahold did not reach agreements with the franchisees and these stores have been transferred back to Jumbo. As of the end of Q3,

Ahold recognized an €8.6 million impairment loss of prepaid consideration. Goodwill recognized in the amount of €237 million by October 4, 2015 (YTD 2015: €63 million), which will not be deductible for tax purposes, represents expected synergies from the combination of operations, as well as the ability to expand Ahold's geographic reach.

The 17 stores that were converted to the Albert Heijn banner through Q3 2015 have contributed €53 million to YTD 2015 net sales and an insignificant amount to net income for YTD 2015.

Other acquisitions

Ahold completed several minor store acquisitions for a combined purchase consideration of €6 million.

The allocation of the fair value of the net assets acquired and the goodwill arising from the acquisitions during 2015 is as follows:

€ million	Jumbo	Other	Total

8. Equity attributable to common shareholders

Dividend on common shares

On April 15, 2015, the General Meeting of Shareholders approved the dividend over 2014 of €0.48 per common share (€396 million in the aggregate). This dividend was paid on April 30, 2015.

Share buyback

On February 26, 2015, Ahold announced its decision to return €500 million to its shareholders by way of a share buyback program, to be completed over a 12-month period. Under this program, 8,795,407 of the Company's own shares were repurchased and delivered in the first half of 2015. Shares were repurchased at an average price of €18.32 per share for a total amount of €161 million. As a result of the announcement that Ahold will merge with Delhaize (see *Note 12*), the share buyback program was terminated in the second quarter.

On July 7, 2015, Ahold cancelled 60,000,000 shares purchased in this and prior share buyback programs.

The number of outstanding common shares as of October 4, 2015, was 818,232,888 (December 28, 2014: 822,597,462). The decrease is the net effect of the share buyback and the re-issuance of treasury shares for the delivery of the shares vested under the Global Reward Opportunity program.

9. Cash flow

The following table presents the reconciliation between the statement of cash flows and the cash and cash equivalents as presented on the balance sheet:

Financial assets and liabilities measured at fair value on the balance sheet

Of Ahold's categories of financial instruments, only derivatives, assets available for sale and reinsurance assets (liabilities) are measured and recognized on the balance sheet at fair value. These fair value measurements are categorized within Level 2 of the fair value hierarchy. The Company uses inputs other than quoted prices that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). The fair value of derivative instruments is measured by using either a market or income approach (mainly present value techniques). Foreign currency forward contracts are measured using quoted forward exchange rates and yield curves derived from quoted interest rates that match the maturity of the contracts. Interest rate swaps are measured at the present value of expected future cash flows. Expected future cash flows are discounted by using the applicable yield curves derived from quoted interest rates.

The valuation of Ahold's derivative instruments is adjusted for the credit risk of the counterparty, called Credit Valuation Adjustment ("CVA"), and for the reporting entity's own credit risk, called Debit Valuation Adjustment ("DVA"). The CVA / DVA calculations have been added to the risk-free fair value of Ahold's interest and cross-currency swaps. The valuation technique for the CVA / DVA calculation is based on relevant observable market inputs.

The carrying amount of receivables, cash and cash equivalents, accounts payable, short-term deposits and similar instruments, and other current financial assets and liabilities approximate their fair values because of the short-term nature of these instruments and, for receivables, because of the fact that any recoverability loss is reflected in an impairment loss. The fair values of quoted borrowings are based on ask-market quoted prices at the end of the reporting period. The fair value of other non-derivative financial assets and liabilities that are not traded in an active market are estimated using discounted cash flow analyses based on prevailing market rates. The fair value calculation method and the conditions for redemption and conversion of the cumulative preferred financing shares are disclosed in Note 22 of Ahold's Annual Report 2014. The accrued interest is included in other current financial liabilities and not in the carrying amounts of non-derivative financial assets and liabilities.

11. Commitments and contingencies

A comprehensive overview of commitments and contingencies as of December 28, 2014, was included in *Note 34* of Ahold's 2014 consolidated financial statements, which were published as part of Ahold's Annual Report 2014 on February 26, 2015. There were no significant changes to this overview through Q3 2015.

12. Merger with Delhaize

On June 24, 2015, Ahold and Delhaize announced their intention to merge their businesses through a merger of equals. As a result of this announcement, Ahold has terminated its ongoing share buyback program and €1 billion will be returned to Ahold shareholders via a capital return and a reverse stock split prior to completion of the merger. Per the merger agreement, Delhaize shareholders are to receive 4.75 Ahold ordinary shares for each Delhaize ordinary share. Upon completion, Ahold shareholders will own approximately 61% of the combined company's equity and Delhaize shareholders will own approximately 39%. The transaction is expected to be completed in mid-2016, following regulatory clearances, associate consultation procedures and shareholder approval.

13. Subsequent events

On July 20, 2015, Ahold announced that it had entered into an agreement with The Great Atlantic & Pacific Tea Company to acquire 25 A&P stores in Greater New York. On October 8, 2015, all conditions had been met and Ahold commenced its purchase of 25 former A&P stores. The purchase and conversion of the stores is planned to occur on a weekly basis in batches of five stores, with the final tranche of stores expected to be converted in mid-November. The purchase price for all of the stores is \$150 million (€134 million).

Use of non-GAAP financial measures

This interim report includes non-GAAP financial measures. The descriptions of these non-GAAP financial measures are included on page 37 of Ahold's Annual Report 2014, with the exception of EBITDA, which is defined below.

Earnings before interest, taxes, depreciation and amortization, or EBITDA, is net income before net financial expense, income taxes, depreciation and amortization. However, EBITDA does not exclude impairments. EBITDA allows investors to analyze the profitability between companies and industries by eliminating the effects of financing (i.e., net financial expense) and capital investments (i.e., depreciation and amortization).

Financial calendar

Ahold's financial year consists of 52 or 53 weeks and ends on the Sunday nearest to December 31.
